PROCESSING REQUEST

Reg #90736-1

Decision #488363

Description: New Technical Product

Material Available Electronically (see PPLS):

☐ Electronic Label/Letter Dated 1/21/2015

☐ Other:

Material Sent (see jacket):

☐ Stamped Label/Letter Dated

☐ Notification Dated

☐ New CSF(s) Dated

☐ Other:

File this coversheet and attached materials in the jacket. It must be well organized and clipped together, NOT STAPLED. Then give the jacket with the coversheet and materials to staff in the Information Services Center (ISC) (Room S-4900). If a jacket is full or only available as an image, please file materials in a new jacket and bring it down to the (ISC). For further information please call 703-605-0716.

Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered under the Federal Insecticide, Fungicide and Rodenticide Act.

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is unconditionally registered in accordance with FIFRA section 3(c)(5) provided that you:

1. Submit and/or cite all data required for registration/reregistration/registration review of your product when the Agency requires all registrants of similar products to submit such data.

Signature of Approving Official:

Shaja B. Joyner, Product Manager 20
Fungicide-Herbicide Branch
Registration Division 7505P

Date:

01/21/2015

2. Make the following label changes before you release the product for shipment:
 - Revise the EPA Registration Number to read, "EPA Reg. No. 90736-1."
3. Submit one copy of the revised final printed label for the record before you release the product for shipment.

Should you wish to add/retain a reference to the company's website on your label, then please be aware that the website becomes labeling under the Federal Insecticide Fungicide and Rodenticide Act and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) list examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA's Office of Enforcement and Compliance.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6. Your release for shipment of the product constitutes acceptance of these conditions. A stamped copy of the label is enclosed for your records. Please also note that the record for this product currently contains the following CSFs:

- Basic CSF dated 03/06/2014

If you have any questions, please contact Marcel Howard at (703) 305-6784 or Howard.Marcel@epa.gov.

 Jintan City, Jiangsu Province, 213200 P. R. China

PRECAUTIONARY STATEMENTS

Hazards to Humans and Domestic Animals

WARNING. May be fatal if swallowed. Harmful if absorbed through skin. Causes moderate eye irritation. Avoid contact with skin, eyes, or clothing. Wear long-sleeved shirt and long pants, socks, shoes, and chemical resistant gloves. Wear protective eyewear. Remove and wash contaminated clothing before reuse. Prolonged or frequently repeated skin contact may cause allergic reaction in some individuals. Wash thoroughly with soap and water after handling and before eating drinking, chewing gum, using tobacco, or using the toilet.

ENVIRONMENTAL HAZARDS

This product is toxic to fish and shrimp. Do not apply directly to water, to areas where surface water is present or to intertidal areas below the mean high water mark. Do not contaminate water by cleaning of equipment or disposal of wastes. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans, or other waters, unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance, contact your State Water Board or Regional Office of the EPA.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Only for formulation into fungicides for the following uses: (1) almonds, banana and plantains, caneberry subgroup 13-07A, bushberry subgroup 13-07B, low growing berry subgroup 13-07G except cranberry, carrots, celery and leaf petioles subgroup, cereals (wheat, barley, rye, triticale and oats), cilantro, citrus (non-bearing), corn (field seed, popcorn and sweet corn), cranberries (OR, WA, WI only), filberts, garden beets, grasses grown for seed (ID, MN, NE, OR and WA only), mint (peppermint and spearmint), bulb onion subgroup 3-07A, green onion subgroup 3-07B, parsley, peanuts, pecans, pineapples (HI only), pistachios, rice, wild rice (MN only), sorghum, soybeans, stone fruits, sugar beets, sugarcane, tree nuts, and turf and ornamentals, (2) uses for which USEPA has accepted the required data and/or citations of data that the formulator has submitted in support of registration, and (3) uses for experimental purposes that are in compliance with USEPA. Unless packaged in water-soluble packaging, this product may not be formulated into wettable powder end-use products. This product may not be formulated into end-use products for use in carpet fibers, apparel, and furnishings. Formulators are responsible for providing data to support registration of products formulated from this product.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

Pesticide Storage: Store in original container tightly closed in a cool, dry, well-ventilated area.

Pesticide Disposal: Pesticide wastes may be acutely hazardous. Improper disposal is a violation of federal law. Pesticide mixtures or equipment rinse water that cannot be chemically reprocessed must be disposed of according to applicable federal, state, or local procedures. Contact your State Pesticide or Environmental Control Agency or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

Container Handling: Nonrefillable container. Do not reuse or refill this container. Clean container promptly after emptying. Triple rinse or pressure rinse container (or equivalent) promptly after emptying. **Triple rinse as follows:** Empty the remaining contents into application equipment or a mix tank. Fill the container 1/4 full with water. Replace and tighten closures. Tip container on its side and roll it back and forth, ensuring at least one complete revolution, for 30 seconds. Stand the container on its end and tip it back and forth several times. Turn the container over onto its other end and tip it back and forth several times. Empty the rinsate into application equipment or a mix tank or store rinsate for later use or disposal. Repeat this procedure two more times. **Pressure rinse as follows:** Empty the remaining contents into application equipment or a mix tank. Hold the container upside down over application equipment or mix tank or collect rinsate for later use or disposal. Insert pressure rinsing nozzle in the side of the container and rinse at about 40 psi for at least 30 seconds. Drain for 10 seconds after the flow begins to drip. Then offer the drum for recycling, if available or dispose of in a sanitary landfill or by incineration or, if allowed by state and local authorities, by burning. If burned, stay out of smoke.

WARRANTY STATEMENT

IMPORTANT NOTICE: To the extent consistent with applicable law, neither the manufacturers nor the seller make any warranty, expressed or implied, concerning the use of this product other than indicated on the label. Buyer assumes all risk of use of this material when such use is contrary to label instructions. Read and follow the label directions carefully.

SIMILARITY CLINIC MEMORANDUM:

Subject: Name of Pesticide Product: Propiconazole Tech 95%
EPA File Symbol: 90736-R
DP Barcode: 419122
Decision #: 488363
Action Code: R333
PC Code: 122101 Propiconazole

From: Tracy Keigwin, Biologist
Technical Review Branch
Registration Division (7505P)

Tracy Keigwin
ML

To: Shaja Joyner, RM 20
Fungicide Branch
Registration Division (7505P)

Applicant: Jiangsu Fengdeng Crop Science Co., Ltd.
c/o Pyxis Regulatory Consulting Inc.
4110 136th St. NW
Gig Harbor, WA 98332

FORMULATION FROM LABEL:

<u>Active Ingredient(s):</u>	<u>% by wt.</u>
Propiconazole	95.5

<u>Other Ingredient(s):</u>	4.5
-----------------------------	-----

Total: 100.0%

BACKGROUND: Jiangsu Fengdeng Crop Science Co. has submitted an application for the registration of EPA File Symbol 90736-R, Propiconazole Tech 95%. The registrant states that Propiconazole Tech 95% is similar to EPA Reg. No. 87284-3, Willowood Propiconazole Technical II. The product label states that Propiconazole Tech 95% is for formulation into fungicide for listed agricultural sites, previously accepted propiconazole uses and experimental uses.

COMMENTS AND RECOMMENDATIONS:

1) We will accept the similarity claim to EPA Re. No. 87284-3. The acute toxicity profile for EPA File Symbol 90736-R, Propiconazole Tech 95% is as follows:

acute oral toxicity	II	Cited
acute dermal toxicity	III	Cited
acute inhalation toxicity	IV	Cited
primary eye irritation	III	Cited
primary skin irritation	IV	Cited
dermal sensitization	Pos	Cited

✓ 2) The signal word and precautionary language on the Propiconazole Tech 95% label are incorrect. Based on the data used to generate the acute toxicity profile for this product the signal word should be "WARNING" due to acute oral toxicity.

✓ 3) The First Aid statement must list the associated language in the order of toxicity (If Swallowed, If On Skin, If In Eyes, If Inhaled...)

4) The product chemistry team must approve the proposed Basic formulations (dated March 6, 2014) before this action can be finalized.

✓ 5) TRB recommends that protective eyewear be added to the PPE required for this product, based on the revised pH.

6) The following are the precautionary and first aid statements for this product, as obtained from the Label Review System:

PRODUCT ID #: 90736-R (90736-1)

PRODUCT NAME: Propiconazole Tech 95%

PRECAUTIONARY STATEMENTS

SIGNAL WORD: WARNING

Hazards to Humans and Domestic Animals:

May be fatal if swallowed. Harmful if absorbed through skin. Causes moderate eye irritation. Avoid contact with skin, eyes or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. Wear long-sleeved shirt and long pants, socks, shoes, and chemical resistant gloves. Wear protective eyewear (if appropriate). Remove and wash contaminated clothing before reuse.

Prolonged or frequently repeated skin contact may cause allergic reactions in some individuals.

First Aid:

If swallowed:

- Call a poison control center or doctor immediately for treatment advice.
- Have person sip a glass of water if able to swallow.
- Do not induce vomiting unless told to by a poison control center or doctor.
- Do not give anything to an unconscious person.

If on skin:

- Take off contaminated clothing.
- Rinse skin immediately with plenty of water for 15-20 minutes.
- Call a poison control center or doctor for treatment advice.

If in eyes:

- Hold eye open and rinse slowly and gently with water for 15-20 minutes.
- Remove contact lenses, if present, after the first 5 minutes, then continue rinsing.
- Call a poison control center or doctor for treatment advice.

Have the product container or label with you when calling a poison control center or doctor or going for treatment. You may also contact 1-800-xxx-xxxx for emergency medical treatment information.

Date: 11/17/14

SUBJECT: Product Chemistry Review Propiconazole Technical

FROM: Indira Gairola / Product Chemistry Team
CITAB/RD (7505P)

TO: Marcel Howard / Shaja Joyner PM 20
Fungicide Branch / Registration Division (7505P)

DP BARCODE: D419638

DECISION No.: 488363

File Symbol No.: 90736-R

PRODUCT NAME: Propiconazole Technical

PC Code: 122101

REGISTRANT: USE: Fungicide

FOOD USE: Yes ☒ No ☐

MRID Numbers: 493348-01 to -03

INTRODUCTION:

The registrant submitted an application for registration of the new technical a. i "Propiconazole Technical". Registrant has submitted Basic CSF dated 03/06/14. Applicant is submitting MRID # for 493348-01 to -03 for product chemistry data to support this registration application. CITAB (Chemistry Team) has been asked to determine the acceptability of the aforementioned product chemistry data and CSF

SUMMARY OF FINDINGS:

1. Group A guidelines: 830.1550 (Product identity & composition)
Data for the identity and composition of the product were provided. The active ingredient is Propiconazole present at a nominal concentration of 95.5%. The product chemistry data

submitted corresponding to Guideline 830.1550 satisfy the data requirements of 40CFR§158.320.

830.1600 (Description of materials used to produce the product)

The registrant provided a list of suppliers and MSDSs for the materials used to produce the product. The product chemistry data submitted corresponding to Guideline 830.1600 satisfy the data requirements of 40CFR§158.325.

830.1620 (Description of production process)

The production process at by Jiangsu Fengdeng Crop Science Co. Ltd. Jiangsu Province, PR, China, was described adequately in MRID #493169-01. The product chemistry data submitted corresponding to Guideline 830.1620 satisfy the data requirements of 40CFR§ 158.330.

830.1670 (Discussion on the formation of impurities)

A discussion of the origin and mechanism formation for the impurities in the product was provided in MRID #493348-01. The product chemistry data submitted corresponding to Guideline 830.1760 satisfy the data requirements of 40CFR§158.340. No impurity of significant toxicological concern was identified.

830.1700 (Preliminary analysis)

Results of a five-batch preliminary analysis were provided in in MRID #493348-02. The recovery content of a.i. ranged from 94.92% to 95.61%. These values are within the certified limits specified on the CSF. The product chemistry data submitted corresponding to Guideline 830.1700 satisfy the data requirements of 40CFR§158.345.

830.1750 (Certified limits)

Certified limits were provided for the active ingredient, and upper certified limits were provided for the impurities in the product. The product chemistry data submitted corresponding to Guideline 830.1750 satisfy the data requirements of 40CFR§158.350.

830.1800 (Enforcement analytical method)

A description of the enforcement analytical method and its validation were provided. The product chemistry data submitted corresponding to Guideline 830.1800 satisfy the data requirements of 40CFR§158.355.

CONCLUSIONS:

The (CITAB/ Product Chemistry Team has reviewed the product chemistry data submitted for Propiconazole Technical:

1. All product chemistry data submitted for guideline 830 Series group A are acceptable.
2. The proposed CSF for the Basic formulation (dated 03/06/14) is acceptable.
3. No impurity of significant toxicological concern was identified.
4. Product chemistry data corresponding to 830 series group B (physical-chemical properties) were submitted. The physical-chemical properties data submitted for the basic formulation fulfill this requirement.

Identity

E-ISO common name: Propiconazole

IUPAC name:

(±)-1-[2-(2,4-dichlorophenyl)-4-propyl-1,3-dioxolan-2-ylmethyl]-1H-1,2,4-triazole

CA name:

1-[[2-(2,4-dichlorophenyl)-4-propyl-1,3-dioxolan-2-yl]methyl]-1H-1,2,4-triazole

CAS No: [60207-90-1]

Structure formula:

Empirical formula: C₁₅H₁₇Cl₂N₃O₂

Molecular Weight: 342.2

PRECAUTIONARY STATEMENTS

Hazards to Humans and Domestic Animals

CAUTION. Causes moderate eye irritation. Avoid contact with eyes or clothing. Harmful if swallowed, inhaled or absorbed through the skin. Prolonged or frequently repeated skin contact may cause allergic reaction in some individuals. Wash thoroughly with soap and water after handling and before eating drinking, chewing gum, using tobacco, or using the toilet.

ENVIRONMENTAL HAZARDS

This product is toxic to fish. Do not apply directly to water, to areas where surface water is present or to intertidal areas below the mean high water mark. Do not contaminate water by cleaning of equipment or disposal of wastes. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans, or other waters, unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance, contact your State Water Board or Regional Office of the EPA.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Only for formulation into fungicides for the following uses:

(1) almonds, banana and plantains, caneberry subgroup 13-07A, bushberry subgroup 13-078, low growing berry subgroup 13-07G except cranberry, carrots, celery and leaf petioles subgroup, cereals (wheat, barley, rye, triticale and oats), cilantro, citrus (non-bearing), corn (field seed, popcorn and sweet corn), cranberries (OR, WA, WI only), filberts, garden beets, grasses grown for seed (ID, MN, NE, OR and WA only), mint (peppermint and spearmint), bulb onion subgroup 3-07A, green onion subgroup 3-078, parsley, peanuts, pecans, pineapples (HI only), pistachios, rice, wild rice (MN only), sorghum, soybeans, stone fruits, sugar beets, sugarcane, tree nuts, and turf and ornamentals, (2) uses for which USEPA has accepted the required data and/or citations of data that the formulator has submitted in support of registration, and (3) uses for experimental purposes that are in compliance with USEPA.

Formulators are responsible for providing data to support registration of products formulated from this product.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

Pesticide Storage: Store in original container tightly closed in a cool, dry, well-ventilated area.

Pesticide Disposal: Pesticide wastes may be acutely hazardous. Improper disposal is a violation of federal law. Pesticide mixtures or equipment rinse water that cannot be chemically reprocessed must be disposed of according to applicable federal, state, or local procedures. Contact your State Pesticide or Environmental Control Agency or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

Container Handling: Nonrefillable container. Do not reuse or refill this container. Clean container promptly after emptying. Triple rinse or pressure rinse container (or equivalent) promptly after emptying. **Triple rinse as follows:** Empty the remaining contents into application equipment or a mix tank. Fill the container 1/4 full with water. Replace and tighten closures. Tip container on its side and roll it back and forth, ensuring at least one complete revolution, for 30 seconds. Stand the container on its end and tip it back and forth several times. Turn the container over onto its other end and tip it back and forth several times. Empty the rinsate into application equipment or a mix tank or store rinsate for later use or disposal. Repeat this procedure two more times. **Pressure rinse as follows:** Empty the remaining contents into application equipment or a mix tank. Hold the container upside down over application equipment or mix tank or collect rinsate for later use or disposal. Insert pressure rinsing nozzle in the side of the container and rinse at about 40 psi for at least 30 seconds. Drain for 10 seconds after the flow begins to drip. Then offer the drum for recycling, if available or dispose of in a sanitary landfill or by incineration or, if allowed by state and local authorities, by burning. If burned, stay out of smoke.

RE: Jiangsu Fengdeng Crop Science Co., Ltd.
Propiconazole Tech 95% (EPA File Symbol 90736-)
Application for New Pesticide Registration
PRIA Category R333

Dear Dr. Joyner,

On behalf of Jiangsu Fengdeng Crop Science Co., Ltd., we are submitting an application for registration of Propiconazole Tech 95%. In support of this application, we submit the following documents:

1. Application for a New Pesticide Registration (EPA Form 8570-1)
2. Confidential Statement of Formula (EPA Form 8570-4)
3. Three (3) Copies of the Proposed Labeling for Propiconazole Tech 95%
4. A CD containing an electronic version of the label
5. Certification with Respect to Label Integrity
6. Agency Internal Use Copy of the Data Matrix
7. Public File Copy of the Data Matrix
8. Certification with Respect to Citation of Data (EPA Form 8570-34)
9. Copy of the PRIA payment from pay.gov
10. Letter of Authorization
11. Product Specific Data (3 copies each):

49334801

Volume 1	830.1550, 830.1600, 830.1620, 830.1670, 830.1750, 830.1800	Tillman, A. M. Propiconazole Tech 95%. Product Identity and Composition, Description of the Materials Used, Description of the Production Process, Discussion of the Formation of Impurities, Certified Limits, and Enforcement Analytical Method. <i>Contains Confidential Business Information.</i>
----------	--	--

49334802

Volume 2	830.1700, 830.1800	Jufang, L. Five Batches Analysis of Propiconazole TC. <i>Contains Confidential Business Information.</i>
Volume 3	830.6302, 830.6303, 830.6304, 830.6313, 830.6314, 830.6315, 830.6316, 830.6317, 830.6319, 830.6320, 830.6321, 830.7000, 830.7050, 830.7100, 830.7200, 830.7220, 830.7300, 830.7370, 830.7570, 830.7840- 7860, 830.7950	Miller, R. Physical and Chemical Characteristics Propiconazole Tech 95%.

49334803

This application for registration is for a new product with an unregistered source of active ingredient (PRIA Category R333). The fee for this action (\$18, 893) has been paid. As per EPA's interpretations of 40 CFR Parts 152.86(b)(2)(i) and 152.93(b)(2)(i), Jiangsu Fengdeng Crop Protection Co., Ltd. submitted notices of intent to apply and offers to pay to all companies on the September 25, 2013 Data Submitter's List.

Please contact me by email at Ann@PyxisRC.com or by phone ((253) 853-7369) if you have any questions or need any additional information.

Sincerely,

Ann M. Tillman

Footnotes

A. During the 21 day initial content review, all CSFs will be reviewed to determine whether all inerts listed, including fragrances, are approved for the proposed uses or have an application pending with the Agency. If an unapproved inert with no application pending with the Agency is identified, the applicant must either 1) resolve the inert issue by, for example, removing the inert, substituting it with an approved inert, submitting documentation that EPA approved the inert for the proposed pesticidal uses, correcting mistakes on the CSF, etc. or 2) provide the data to support OPP approval of the inert or 3) withdraw the application. Removing or substituting an inert ingredient will require a new CSF and may require submission of data. All information, forms, data and documentation resolving the inert issue must have been received by the Agency or the application withdrawn within the 21 day period, otherwise, the Agency will reject the application as described below.

To successfully complete this aspect of the 21 day initial content screen, applicants are **strongly encouraged** to verify that all inert ingredients have been approved for the application's uses or have an application pending with the Agency **even if a product is currently registered** by consulting the [inert Web site](#) and if the inert is not approved nor has an application pending with the Agency, to **obtain the necessary inert approval prior to submitting an application to register a pesticide product containing that inert ingredient**. Some inert ingredients are no longer approved for food uses or certain types of uses. The name and/or CAS number on a CSF must match the name and CAS number on this web site. Simple typographical errors in the name or CAS number have resulted in processing delays.

If an inert is not listed on the inert ingredient web site and the applicant believes that the inert has been approved, the applicant should contact the Inert Ingredient Assessment Branch (IIAB) at inertsbranch@epa.gov and resolve the issue. Copies of the correspondence with IIAB resolving the issue should accompany the application. All new inerts except PIP inerts are reviewed by IIAB. The IIAB should also be contacted for any questions on what supporting data needs to be submitted for and the Agency's inert review process. Questions on PIP inerts should be directed to the [Chief of Microbial Pesticides Branch](#).

When a brand, trade, or proprietary name of an inert ingredient is listed on a CSF, additional information such as an alternate name of the inert, CAS number or other information must also be included to enable the Agency to determine if it has been approved. Each component of an inert mixture (including a fragrance) must be identified. In some cases, the supplier of the mixture or fragrance may need to provide this information to the Agency. Prior to the Agency's receipt of an application, applicants must arrange with a proprietary mixture or fragrance supplier to provide the component information to the Agency or promptly upon EPA's request. If the inert ingredients in a proprietary blend (including fragrances) cannot or are not identified or provided within the 21-day content review period, the Agency will reject the application.

During the 21 day content review, applicants should submit information to the individual identified by the Agency when the applicant is informed of an unapproved inert.

Unapproved Inerts Identified on CSFs

All applications except conventional new products and PIPs

Once an unapproved inert is identified on a CSF, the Agency will contact the applicant with the following options:

1. Correct the application by, for instance, correcting the inert's identity or CAS number, providing documentation that the inert has been approved, or removing the unapproved inert from the CSF or replacing it with one that is approved for the application's uses; or
2. Provide the required information necessary to identify an inert approval application that is pending with the Agency; or
3. Submit the information and data needed for the Agency to approve the unapproved inert. If this option is selected and implemented, the Agency may request an extension in the PRIA decision review timeframe to accommodate the inert review/approval process;
4. Withdraw the application (the Agency retains 25% of the full fee for the fee category estimated); or

If none of these options is selected and implemented by the applicant within the 21 day content review period, the Agency will reject the application and retain 25% of the full fee of the category identified.

Conventional New Product Applications

When the Registration Division identifies an unapproved inert on a CSF with an application for a new product that the applicant has not identified as requiring an inert approval (R300 or R301), it will contact the applicant with the following options:

1. Correct the application by, for instance, correcting the inert's identity or CAS number, providing documentation that the inert has been approved, or removing the unapproved inert from the CSF or replacing it with one that is approved for the application's uses; or
2. Submit the information and data needed for the Agency to approve the unapproved inert, including any required petition to establish or amend a tolerance or exemption from a tolerance. (This option may change the PRIA category for the application, which could require a longer decision review time and a larger fee. If additional fees are due, they must be received by the Agency within the 21 day content review period.)

3. Withdraw the application (the Agency retains 25% of the full fee for the fee category estimated); or

If none of the above options is selected and implemented during the 21-day content-review period, the Agency will reject the application and retain 25% of the appropriate fee for the new product-inert approval category.

PIP Applications

When the Biopesticide and Pollution Prevention Division identifies an unapproved inert on a PIP CSF and a request to approve the inert does not accompany the application, it will contact the applicant with the following options:

1. Correct the application by, for instance, correcting the spelling or name of the inert to that in 40 CFR 174, or providing documentation that the inert has been approved; or
2. Submit the information and data needed for the Agency to approve the unapproved inert. If an inert ingredient tolerance exemption petition is required, the petition must be received by the Agency and the B903 fee paid within the 21 day period. If this option is selected and implemented, the Agency will discuss harmonizing the timeframe for both actions.
3. Withdraw the application (the Agency retains 25% of the full fee for the fee category estimated); or

If none of the above options is selected and implemented during the 21 day content review period, the Agency will reject the application and retain 25% of the fee.

B. A policy on documentation of offers to pay is still being developed, however, for a me-too or fast track (similar/identical) new product, R300 or A530, an application without the necessary authorizations of offers to pay will be placed into either R301 or A531. The Agency recommends that authorizations of offers to pay be submitted with other PRIA applications to avoid delays in the Agency's decision.

C. Biopesticide applicants are advised to contact the Agency and discuss study waivers prior to submitting their application to the Agency. Documentation of such discussions should be submitted with the study waiver.

SUBJECT: Receipt of Registration Application Subject to Registration Service Fee

Dear Registrant:

The Office of Pesticide Programs has received your application and certification of payment. If you submitted data with this application, the results of the PRN-2011-3 screen will be communicated separately. During the administrative screen, the Office of Pesticide Programs has determined that this Action is subject to a Pesticide Registration Service Fee as defined in the Pesticide Registration Improvement Act.

The Action has been identified as Action Code: R333

NEW PRODUCT;MUP OR END USE PRODUCT WITH UNREGISTERED SOURCE OF THE ACTIVE INGREDIENT;REQUIRES SCIENCE DATA REVIEW;NEW PHYSICAL FORM;CITE-ALL OR SELECTIVE DATA CITATION WHERE APPLICANT OWNS ALL REQUIRED DATA;

No additional payment is due at this time.

If you have any questions, please contact the Pesticide Registration Service Fee Ombudsman at (703) 308-9362.

Sincerely,

A handwritten signature in cursive script, appearing to read "Teresa Jones", is written over the typed name.

General Use Pattern(s) (list all those claimed for this product using 40 CFR Part 158)
 TGA1

Product Name

Propiconazole Tech 95%

NOTE: If your product is a 100% repackaging of another purchased EPA-registered product labeled for all the same uses on your label, you do not need to submit this form. You must submit the Formulator's Exemption Statement (EPA Form 8570-27).

I am responding to a Data-Call-In Notice, and have included with this form a list of companies sent offers of compensation (the Data Matrix form should be used for this purpose).

SECTION I: METHOD OF DATA SUPPORT (Check one method only)

I am using the cite-all method of support, and have included with this form a list of companies sent offers of compensation (the Data Matrix form should be used for this purpose).

I am using the selective method of support (or cite-all option under the selective method), and have included with this form a completed list of data requirements (the Data Matrix form must be used).

SECTION II: GENERAL OFFER TO PAY

[Required if using the cite-all method or when using the cite-all option under the selective method to satisfy one or more data requirements]

I hereby offer and agree to pay compensation, to other persons, with regard to the approval of this application, to the extent required by FIFRA.

SECTION III: CERTIFICATION

I certify that this application for registration, this form for reregistration, or this Data-Call-In response is supported by all data submitted or cited in the application for registration, the form for reregistration, or the Data-Call-In response. In addition, if the cite-all option or cite-all option under the selective method is indicated in Section I, this application is supported by all data in the Agency's files that (1) concern the properties or effects of this product or an identical or substantially similar product, or one or more of the ingredients in this product; and (2) is a type of data that would be required to be submitted under the data requirements in effect on the date of approval of this application if the application sought the initial registration of a product of identical or similar composition and uses.

I certify that for each exclusive use study cited in support of this registration or reregistration, that I am the original data submitter or that I have obtained the written permission of the original data submitter to cite that study.

I certify that for each study cited in support of this registration or reregistration that is not an exclusive use study, either: (a) I am the original data submitter; (b) I have obtained the permission of the original data submitter to use the study in support of this application; (c) all periods of eligibility for compensation have expired for the study; (d) the study is in the public literature; or (e) I have notified in writing the company that submitted the study and have offered (i) to pay compensation to the extent required by sections 3(c)(1)(F) and/or 3(c)(2)(B) of FIFRA; and (ii) to commence negotiations to determine the amount and terms of compensation, if any, to be paid for the use of the study.

I certify that in all instances where an offer of compensation is required, copies of all offers to pay compensation and evidence of their delivery in accordance with sections 3(c)(1)(F) and/or 3(c)(2)(B) of FIFRA are available and will be submitted to the Agency upon request. Should I fail to produce such evidence to the Agency upon request, I understand that the Agency may initiate action to deny, cancel or suspend the registration of my product in conformity with FIFRA.

I certify that the statements I have made on this form and all attachments to it are true, accurate, and complete. I acknowledge that any knowingly false or misleading statement may be punishable by fine or imprisonment or both under applicable law.

Endnotes for Data Matrix for Propiconazole Tech 95%

-
- ¹ **830.1650** – These data are not required for technical grade active ingredients. Refer to 830.6320.
- ² **830.6315** - Propiconazole Tech 95% is the technical grade of the active ingredient and contains no flammable components; therefore Jiangsu Fengdeng Crop Science Co., Ltd. requests a waiver for this data requirement.
- ³ **830.6316** Propiconazole Tech 95% is the technical grade of the active ingredient and contains no components that are known to have explosive characteristics; therefore Jiangsu Fengdeng Crop Science Co., Ltd. requests a waiver for this data requirement.
- ⁴ **830.6319** - This data requirement is required when the product is an emulsifiable liquid and to be diluted with petroleum solvents. Propiconazole Tech 95% is not an emulsifiable concentrate; therefore these data are not applicable nor are they required.
- ⁵ **830.6321** - These data are required if the product is an end-use product to be used around electrical equipment. This data requirement is not applicable to Propiconazole Tech 95%.
- ⁶ **830.7520** – Jiangsu Fengdeng Crop Science Co., Ltd. is seeking a waiver for this data requirement for Propiconazole Tech 95% because the product is not a fibrous material or a water-insoluble material.

Date

There is an **ELECTRONIC LABEL** for this action

You can use Acrobat to compare the e-label to the previous version (and find the changes). You can also use Acrobat to mark-up the e-label with your comments.

If e-label was submitted via

CD-ROM with paper application

then you will find e-label in

Electronic Label Library

If the e-label is not found in the ELL then it was probably not named correctly and could not be entered into the ELL. However, the file can be retrieved from the CD which is retained by the Front End.

or

If e-label was submitted via

XML E-Submission (no paper)

then you will find e-label in

Documentum

See overview of processing e-labels on other side of this sheet.

If you have any questions on e-labels, please contact one of your division e-label experts:

AD	Willie Abney	308-1689
	Renae Whitaker	308-7003
	Tracy Lantz	308-6415
BPPD		
RD	Tom Harris	308-9423

PROCESSING ELECTRONIC LABELS

(rev. 1/5/09, tch)

If e-label submitted via XML e-submission (not on CD-ROM), you may wish to find e-label in Documentum, save e-label to "My Documents", add e-label to ELL, start below at step 5.

Initial E-Label per application (on CD-ROM with paper via ITRMD)

¹ ITRMD receives paper submission w/ e-label on CD

² Tracking record added to OPPIN

³ ITRMD adds e-label to ELL

⁴ ITRMD sends paper submission to AD/BPPD/RD

⁵ Connect ELL record with OPPIN S#

in-process

⁶ Save copy of e-label from ELL to My Documents

⁷ Review label
(if acceptable, skip to step 20)

⁸ Add comments to e-label
(save; add "with comments" to filename)

⁹ Print annotated e-label
(use "Print with Filename")

review

¹⁰ Send annotated e-label to registrant via email
(also send "How To Print")

¹¹ File print of annotated e-label and email in jacket

¹² Add annotated e-label to ELL

¹³ Close submission in OPPIN

out-process

Resubmission (via email to staffer or PM)

¹⁴ Receive email submission w/ e-label attached

¹⁵ Add tracking record to OPPIN

¹⁶ Add e-label to ELL

¹⁷ Connect ELL record with OPPIN S#

in-process

¹⁸ Save copy of e-labels (old & new) from ELL to My Documents

¹⁹ Compare old and new labels with Acrobat

(if revisions needed repeat steps 8-19)

review

²⁰ Print e-label, stamp, write cover letter
(use "Print with Filename")

²¹ Mail stamped label & cover letter to registrant

²² File stamped label & cover letter in jacket

²³ Add cover letter to ELL
(mandatory if accepted with comments)

²⁴ Close submission in OPPIN

out-process

process - big picture

- 1- create OPPIN tracking
- 2- put label in ELL; link to S#
- 3- save ELL label to MyDocuments
- 4- compare / comment
- 5- outprocess

techniques to know

- filename for e-labels
- "print with filename"
- compare / comment
- printing with comments
